

EuCARD activities of relevance to TIARA WP5

**Naomi Wyles
EuCARD WP2**

- **Project started in April 2009**
- **EU funded Accelerator R&D project**
- **WP2: Dissemination, Communication and Outreach**
 - Internal and external website <http://eucard.web.cern.ch/EuCARD/index.html>
 - Newsletter <http://eucard.web.cern.ch/EuCARD/news/newsletters/issue07/index.html>
 - Monitor publications
 - Publications database
 - Web based tools for project management
 - To promote awareness and understanding of accelerator science in the community at large (inc. industrial partners, academics in related fields, teachers students – organise public talks, lectures, workshops and online outreach via web)
<http://eucard.web.cern.ch/EuCARD/activities/communication/>
 - Publish monographs on accelerator technology
<http://eucard.web.cern.ch/EuCARD/activities/communication/booklets/>

- **Most areas well developed**
- **Outreach less well developed**
- **Plans to develop outreach while I am here (only for 6 months)**
 - Web based material for public describing particle accelerators
 - Activities for school children (14-19 year olds) on website
 - Talks for public and school children

- **WP5.1 Survey of available accelerator science courses and of teaching resources**
 - EuCARD is collating information on available courses in member institutes

- **WP5.3 Promotion of accelerator science and technology at multiple levels**
 - EuCARD also trying to do this (see previous slide)
 - EuCARD is more public and school children whereas TIARA more at university level but still some overlap inc. industry, schools and society at large

- **Database of accelerator science courses**
 - TIARA can use what EuCARD has already done and is about to do
- **Outreach**
 - Develop joint resources (all EuCARD resources will be available on public website)
 - Joint events (e.g. public talks could be associated with both projects)
